The Bonauxa carries TWICE as

much NEWS as any paper in this

REPORTS BY WIRELESS

Thousands of farmers located in

middle western states are twice

daily receiving market reports by wireless telephone. There is no cost to the service, once the inex-

pensive receiving set has been in-stalled, and which can be purchased

anywhere. The Westinghouse Electric Co., from its great free broadcasting station at Newark,

N. J., not only sends out market reports at 12 o'clock noon and 6

P. M. daily, but also furnishes offi-cial weather forecasts and other en-

tertaining and educational programs. It has been estimated that

more than a haif million amateurs (mostly in rural districts and on farms) "listen in" every day. Pictures show the operator sending out market reports from Newark; and

map shows distances the messages are received.
